STAINBURN'S VEGETABLE EXTRACT PILLS possess the true medical properties of such plants, roots and barks as have been proved by long experience to possess a curative virtue for the various maladies incident to the hu-man frame, and nothing but the finer and pu-rer parts are used. By the process of the newly invented machinery the essential quali-ties are alone taken in a concentrated form, thus separating them from the grosser and fibrous parts.

STAINBURN'S PILLS will immediately attack the seat of disease, and gradually, by means of their purgative operation, most surely drive out all disease from the system.

IN ALL CASES OF RECENT SICKNESS-such as a cough, headache, shivering, pains in the limbs or back, occasioned by having taken cold, or a sudden change of weather, STAINBURN'S VEGETABLE EXTRACT PILLS will be found to give sure and immediate ease, by relieving the various outlets of the system which

CA ODEY'S LADY'S BOOK having been, for so long a series of years, universally recognized as the indisputable guide to the lair sex. in matters of taste, fashion and literature, -the only work conducted by distinguished female authors, who have won for themselves a high place among the guiding spirits of the age—the only work which in point of fact has been EXCLUSIVELY DEVOTED TO THE LADIES, its favor with its tair patrons has not been less remarkable than its perfect adaption to their feelings and tastes and their require ments. In entering upon a new year the publisher without diminishing in the least that STERLING AND USEFUL LITERATURE which has long resulted from laying under contribution the native good sense and elagant an cy of our AMERICAN FEMALE WRI-TERS, will as each successive number ap-pears, present in the several departments of TERS, will as each successive number appears, present in the several departments of LITERATURE, FASHION, AND PICTO RIAL EMBELLISHMENT, a constant and ever varying succession of New and structure reactions. Nor does he promise without ample ability to perform. The best literary talent, the best efforts of the most distinguished ent, the best efforts of the most distinguished. ent, the best efforts of the most distinguished artists in the country—and to crown as well as adorn the whole, the most perfect arrange-illusory and deceptive, and that the arts of ments for the reception of the Americaa, Lon-impostors are seldom put in practice, except don and Paris Fasmons, far in advance of any other publication in this country, enable him to assure the patrons of the Lady's Book that the forthcoming volume will more than justify

And as the only wit of Aspasia, would hardly commend to gentrue test, of the merit of measures or adminis. eral favor an acknowledged powny in dress. Hence the importance of an accredited guide o the Fastnows. This useful office, already filled for fourteen years with universal acceptable by the Lady's Book, the publisher pledges himself to discharge in future in a style surpassing all his former efforts. The Ladies know perfectly well that our Magazine's is the highest authority in FASHION. No lady considers herself well dressed who cantravenes this authority, and in our own city, in New York, Boston, Baltimore, Cincinnati, Louisville, Lexington, St. Louis, New Orleans, Mobile, Richmond, Charleston, Savannah, and other Metropolitan Circus of States, the tasteful Fushion Plates of the Lady's Book dictate the laws of press. In future the figures will be thrown into tasteful groups displaying the graces of dress to the best advantage, and the backgrounds of the plates present interesting

Her des-criptions are worthy of the productions of her own glowing pencil, which drew the earliest Fashion Plates for the Lady's Book.

The publishers correspondent in Paris is possessed of such ample means of obtaining the real and present l'aris Fashions and ot ransmitting them in advance of all competit rs, that the ladies may continue, as they have dready done, to copy from our plates what has eccived the sanction of the Indisputable rox, he last, the newest, the best fashions, frest

The Publisher's means of increasing the beauty of the Lady's Book are accumulating year by year. To his already inestimable list of contributors, he is constantly receiving accessions both at home and abroad. His arty if required. rengements with respect to original paintings, from such Artists as Rothermel, Frankenstein, Chapman, Croome, Maclise, Huntington, are now complete and he numbers among the engravers whose services are constantly retained, Tucke, Smith, Warner, Dick, Sadd, Ellis, Gimbrede, Glassen and Jones.

His whole system of arrangements with re spect to fashion plates is now developed and perfected. The Lady's Book will increfore continue to maintain that proud pre-eminence in merit and in popularity, which fourteen years of unremitted attention online part of the publisher, has carned—it will still remain as

PROSPECTUS

OF THE

YPSILANTI SENTINEL. In soliciting the patronage of the public for te proposed publication, it is due to that pub-e to give an outline of the views and princilie to give an outline of the views and princi-plas by which we shall be governed, and this duty we proceed to discharge. While we shall endeavor to make our shee; the channel applicable to this government; strictly demoto assure the patrons of the lady the forthcoming volume will more than justify scrutiny of our readers to the fidelity with its well carned title of the magazine of Maga. which our professions as an editor are main.

It is well carned title of the MAGAZINE of irresistable conclusion, that that administraa deficiency in this respect always injures one in the estimation of strangers, and even of her conducive to these ends, is best entitled to the trations, is to be found in the effects produced on the interests and moral character of society, it is by this standard alone that we shall aim to be governed in passing judgment upon

We believe the doctrines or rather the dog mas of party as inculcated by the leaders of that school laying exclusive claims to democ. racy, to be the most dangerous, because the most insiduous enemy to the interests and institutions of the country—that it demands of its votaties passive obedience to the order of leaders, regardless of the claims of patriolism, of count-y, or the constitution. Our endeav-or shall therefore be, to expose and counterest the dangerous and enslaving tendency of this doctrine, and enforce as far as in our power lies, the higher obligations of duty to ourselves and to our country, believing that where the requirements of party are thus urged by its leaders, the proceeding carries on its face the most conclusive evidence, that it is their own interests and not those of the country they are

laboring to promote. We believe that the wealth, happiness and independence of our country, depend on the encouragement and protection of the labor and industry of our own citizens, and the cultivation of our own resources in all practibable cases for the supply of our wams, in preference to a reliance upon a precarious supply, to be drawn from abroad, subject to the caprice of the world and the contingences of for

eign commerce. To this outline of our views we shall scrupulously adhere, and with this declaration, orfer our sheet to the public and solicit its pat ro; age. JOHN VAN FOSSEN.
